- February 18—No School—President's Day
- March 1—Upper Elementary Dance Sponsored by LEAP Robotics \$5 Admission 6:30-8:30

MLK Day of Service Family Night Re-Scheduled

Due to the anticipated winter weather, the MLK Day of Service Family Night has been rescheduled for Friday, January 25th with registration at 5:45 at Upper Elementary. Please complete the updated RSVP form (yellow page) so we can properly plan. We hope to see you there!

Winter Weather Reminders:

Just as a reminder, anytime LEAP will be cancelled due to winter weather, the school messenger system is used. Please make certain your telephone and email information are up-to-date with the school and that you are signed up for school messenger. Any afterschool information will also be posted to the Eldon LEAP Afterschool Facebook page as soon as the decision is made. We strive to give parents as much notice as we can when LEAP will be cancelled. Parents can also contact the LEAP office at 573-392-6364 ext. 7.

Inspiring Learning: Learning at LEAP is FUN!

Part of the Afterschool Works message is Inspiring Learning. This past month, LEAP students have not only been inspired to learn, but have had a lot of FUN!

South LEAP students celebrated a variety of December traditions including making cookies, gifts, and ornaments while learning spelling words, using math skills, and don't forget writing those letters to Santa.

Upper LEAP students used their math skills to follow recipes to make dog treats for the animal shelter in Community Club and to make their aprons in Sewing Club. Students have also learned many science principles including chemical reactions and electricity in STEM Club.

EMS LEAP students have not only been learning, but have also been teaching. On Fridays, students have the opportunity to plan and teach lessons about activities and subjects they enjoy. These lessons allow students to be leaders in their classrooms.

Like the Eldon LEAP Afterschool Facebook page to see more fun learning taking place each day.

21st CCLC Outside Evaluation Report Available

As one of the reporting requirements for the 21st CCLC grant, the LEAP Outside Evaluation Report is now available on the LEAP website. This evaluation helps LEAP staff determine areas of improvement based on parent & student surveys, Program Quality Assessment reports, and student academics and attendance in the regular day. Check out this report at:
